PROFESSIONAL SUMMARY

Senior Visual & UI Designer with 17 years of experience delivering high-craft digital interfaces, typography systems, executive pitch decks, and cohesive brand identity systems. I combine aesthetic rigor and visual hierarchy with deep technical understanding of responsive layouts and browser constraints. Over the past decade, I expanded my practice from brand publications to Figma component systems, DesignOps, responsive web UI, and frontend engineering (HTML5, CSS3, React). I leverage modern AI tools to accelerate asset generation and visual exploration.
